## FAITHFUL FRIENDS

"Our Charlie wouldn't be here to love on our kids without this wonderful organization. We became Faithful Friends to Pay It Forward. It feels great to make a monthly donation knowing that it gives Ellie's dependable income to help another family. It makes our day when we get that Thank You sent to us every month with a story of someone we've been a part of helping."

~ Charlie's Family

Have you ever had an emergency for which you just needed that faithful friend? Setting up recurring donations will tell families every month that you understand their desperation and that you care.

## ELLIE'S STORY

Ellie was adopted at 5 months old, after having been found wandering the streets, barely breathing and terribly shy. Soon after adopting her, we found that she had serious health issues. During her extensive medical treatments, we became aware that many people, who loved their pets as much as we did, were forced to make heartbreaking decisions because they were unable to afford necessary medical care. To address this tragedy we created this Fund, in honor of our cherished Ellie, to provide otherwise unaffordable care for beloved pets. Ellie's legacy lives on in every pet that is saved.

## SAVING PETS' LIVES

Ellie's Rainy Day Fund has partnered with veterinary practices in Ohio's Miami Valley. We work with them to help people who would likely otherwise have to face the heartbreak of surrendering or euthanizing their beloved fur-kids due to financial considerations.

Because these medical professionals are best qualified to determine which clients would benefit the most, funds are administered **ONLY** through our partnering veterinarians.
